COMMONWEALTH OF VIRGINIA

STATE CORPORATION COMMISSION

AT RICHMOND, NOVEMBER 22, 2000

APPLICATION OF

ENRON BROADBAND SERVICES  
OF VIRGINIA, INC.

CASE NO. PUC000219

For a certificate of public  
convenience and necessity to  
provide facilities-based  
interexchange telecommunications  
services

FINAL ORDER

On August 3, 2000, ENRON BROADBAND SERVICES OF VIRGINIA, INC. ("ENRON" or "Applicant"), filed an application for a certificate of public convenience and necessity ("certificate") with the State Corporation Commission ("Commission") to provide interexchange telecommunications services throughout the Commonwealth of Virginia. The Applicant also requests authority to price its interexchange telecommunications services on a competitive basis pursuant to § 56-481.1 of the Code of Virginia.

By Order dated August 22, 2000, the Commission directed the Applicant to provide notice to the public of its application which invited interested persons to file comments and request a hearing and directed the Commission Staff to conduct an investigation and, if necessary, file a report.

The Applicant filed its proof of publication and notice on October 25, 2000, and no comments or requests for hearing were received. On November 7, 2000, the Staff filed a report finding that ENRON's application was in compliance with the Commission's Rules Governing the Certification of Interexchange Carriers.<sup>1</sup>

Based upon its review of ENRON's application and the Applicant's responses to Staff data requests, the Staff determined it would be appropriate to grant an interexchange certificate to ENRON.

NOW THE COMMISSION, having considered ENRON's application and the Staff Report, is of the opinion and finds that ENRON should be granted a certificate to provide interexchange telecommunications services. Having considered § 56-481.1 of the Code of Virginia, the Commission further finds that ENRON may price its interexchange telecommunications services competitively.

Accordingly, IT IS THEREFORE ORDERED THAT:

(1) ENRON BROADBAND SERVICES OF VIRGINIA, INC., is hereby granted a certificate of public convenience and necessity, No. TT-115A, to provide interexchange telecommunications services subject to the restrictions set forth in the Commission's Rules Governing the Certification of Interexchange Carriers, § 56-

---

<sup>1</sup> 20 VAC 5-400-60.

265.4:4 of the Code of Virginia, and the provisions of this Order.

(2) ENRON shall provide tariffs to the Division of Communications that conform with all applicable Commission rules and regulations.

(3) Pursuant to § 56-481.1 of the Code of Virginia, ENRON may price its interexchange telecommunications services competitively.

(4) There being nothing further to come before the Commission, this case shall be dismissed and the papers filed herein placed in the file for ended causes.
